Subject: Discussion for tomorrow

Hi Paul,

Good evening. I am writing to list some topics for our call tomorrow:

- Rationale for existing characterization sampling
- Additional locations for sampling
- Meeting the cleanup level (point by point vs sitewide average)

If possible, could you also provide an electronic copy of Figure 4A with a 50' by 50' grid with a coordinate system for identifying grid locations (i.e. 1a, 2a, 2b etc.)?

I'm available tomorrow for the call during the following times: 9-10 am, 11:30am-1:30pm, and after 4 pm. Let me know what works for you and Daniel - I look forward to speaking with you both then. Thanks for talking through these issues.

Sincerely,
Nathan
